

ICI Committees, Working Groups, and Task Forces

Where connections are made, issues addressed, and the future envisioned

ICI member firms are encouraged to place key staff members on one or more of ICI's committees, task forces, and working groups. More than 70 committees with more than 4,000 committed participants tackle a range of complex regulatory, operations, and business issues confronting fund managers, fund boards, and fund shareholders.

Participants build lasting relationships with peers and ICI staff experts. This structure results in effective responses to policymakers and regulators, presenting a strong, unified industry perspective and vision, both domestically and globally.

Committee members set missions and agendas, react to timely issues, and take direct action—but most importantly, they come together to share experiences and outcomes in a trusted environment.

Committee Members Receive Extensive Resources and Services

- Opportunities to gain insight and ideas from your peers
- Access to committee resources related to your topic of interest
- Access to industry surveys on issues that are of interest to you
- Access to ICI staff for help with your questions and issues
- Opportunities to shape comments and recommendations on regulatory, operational, and legislative issues
- Ability to join ICI in conversations with regulators and policymakers

Interested in Joining a Committee?

Contact memberservices@ici.org to take the next step. In addition to the committees listed here, you can find a list of ICI committees and working groups with information such as meeting frequency and number of participants allowed per member firm to help you narrow your selection at www.ici.org.
